School of Psychology & Counseling

Dear Students, Faculty, Staff, Alumni, Area Professionals, Church Ministries, and Site Supervisors,

I am writing to you regarding the Center for Trauma Studies 2015-2016 training schedule. As many of you know, we had a wonderful year in 2014-2015, where we offered Green Cross certification in trauma and established our 7th First Response Trauma team. This team is just leaving for a 2 ½ week trip to Trinidad/Tobago to work with pastors, social workers, prison workers, police, teachers, counselors, students, and individuals in both group and individual/family counseling related to domestic and family violence, sexual abuse, gang violence and murder, HIV/AIDS. A combination of faculty, students, community professionals, and alumni are a part of this 7th group of 25.

We have worked hard over the past year to get our trainings put into an on-line format so that our distance students can take trainings at the same time the on-campus students are in the workshops. While we close, we are not there yet. The Center for Trauma Studies hopes to have everything in place before the start of trainings in September. If they are not ready we will pursue web streaming again in real time for each workshop until they are available in the on-line format. We will keep you informed as we go along. Things are very promising at this point.

Those of you who have already started taking certification courses, my hope is that you will continue and complete the ones that you have missed and join us in the summer for our next deployment which may be in Japan, Nicaragua, or Nepal. I will be sharing at all trainings the vision and the goal of the trauma team in hopes that you will join us. This trauma team has responsibilities both nationally and internationally in times of natural and man-made disasters. These skills and certification will follow you into your practices and serve you for the rest of your life. You do not need to be a student here to participate with us and professionals in the field are encouraged to train and deploy with us. Our certification trainings for the coming year are as follows:
