

SOE Resources

Images and Clip Art

- www.istockphoto.com – This site offers high quality, royalty-free images, clip art, audio, and video files that can be used in presentations, Bb classes, websites, etc. The SOE purchases credits and those credits are used to purchase items. The easiest way to obtain items is to go to the site, search the database for an image you'd like to purchase, and then email Jackie with the item #. I'll purchase the item and email it to you.
- **SOE Image Reserves** – As items are downloaded from various sites, we keep a copy that can be reused by others. These items are available within the SOE Content System at **Regent Content / School of Education / Resources**. To see what an image looks like, right-click over the image name and select "Open" to view it. If you find something you'd like to use from the Content System, simply save the file onto your computer (Right-click and select "Save Target As"). You can then insert it into your document, presentation, or Bb site.

PowerPoint Templates

- **PowerQuotes** – Under the **PPT Templates / PowerQuotes** folder within the Resources area, there are twenty PPT files that contain a word, such as *Attitude, Achievement, Opportunity*, etc., along with a quote and complementary image. Simply download any of the files (using the Right-click and select "Save Target As" method) or save the full file (which contains all 20 slides) and use whichever ones you need.
- **Misc. Templates** – Under the **PPT Templates / Misc. Templates** folder within the Resources area, there are a few templates listed, but others will be added soon. To use, download (Right-click and select "Save Target As") and then open up the file in PowerPoint.

Cartoons

- **Christian Cartoons** – Under the **Christian Cartoons** folder within the Resources area, there are several cartoons that highlight a Bible verse in a fun way. To see what a cartoon looks like, right-click over the image name and select "Open" to view it. If you find something you'd like to use, simply save the file onto your computer (Right-click and select "Save Target As"). You can then insert it into your document, presentation, or Bb site.

Flash

- Although there is only one file currently in the **Flash** folder within the Resources area, others will be added soon. These files can be inserted into a PPT presentation or used in Bb.
