What is Commissioning?

At graduation, you leave from training and preparation at Regent to go out into the world and step into the call God has on your lives. As you go, you can proclaim, as Isaiah did,

“The Spirit of the Lord GOD is upon Me, because the LORD has anointed Me to preach good tidings to the poor; He has sent Me to heal the brokenhearted, To proclaim liberty to the captives, and the opening of the prison to those who are bound; To proclaim the acceptable year of the LORD...To comfort all who mourn...to give them beauty for ashes, the oil of joy for mourning, the garment of praise for the spirit of heaviness; that they may be called trees of righteousness, the planting of the LORD, that He may be glorified” (Isaiah 61: 1-3 NKJV).

MISSION AND PHILOSOPHY

School of Psychology & Counseling

The School of Psychology & Counseling provides leadership for exemplary educational programs. Its professional programs integrate sound practice skills, disciplinary competence, and biblically based values to promote human welfare with a focus on service provision to individuals, family, church, and community.

Vision Statement: Our efforts stem from two central passages of Scripture, "Love the Lord your God with all your heart and with all your soul and with all your mind. This is the first and greatest commandment. And the second is like it: Love your neighbor as yourself," (Matthew 22:37-39); and "Love each other as I have loved you," (John 15:12). The methods and purposes of psychology and counseling are always to be held against these biblical standards.

We aim to educate graduates to provide healing and restoration to members of the local and world community through the application of biblical principles and professional excellence.

College of Healthcare Sciences

Healthcare Management and Health Sciences Department

Mission Statement: The Healthcare Management and Health Sciences Department prepares students for ethical and effective servant leadership in an ever changing health care environment and to add value, service, and influence to their teams, invest in their communities, and help shape the integrity and effectiveness of the healthcare organizations they serve.

Vision Statement: Cherish Character - Students will be able to model and live out the basic values of the healthcare industry on what it means to serve and put others first – to do no harm, heal the sick, and provide care for those who are less fortunate – and to demonstrate disciplined habits of study, research, and data analysis that produce healthy outcomes for individuals and society as a whole.

School of Nursing

Mission Statement: Regent University’s nursing program exists to create a dynamic community of learning to develop exceptionally prepared nurses who will lead to improve health outcomes locally and globally. We promote excellence in teaching, research, service, and practice with a primary focus in faith integration and Christian leadership to change the world. We are committed to being purposeful, caring, disciplined, and celebrative with each student who enters our program.

Vision Statement: The vision of Regent University’s nursing program is to be a premier nursing program dedicated to cultivating Christian leaders in the field of nursing to improve health outcomes both locally and globally.
