

Legs and Teasers.

We have twelve sets - 8' X 25' legs. A full stage black can be made using four sets of legs. There are 4 teasers available.

Electrics.

With the exception of the first electric which is hard wired, lineset 5, there are six - six channel socapex on each side of the stage to power lighting instruments on the battens. The Cyc Electric uses 3 of the 12 (2/SL, 1/SR) for its power.
